## EXAM ASSOCIATE CLOUD ENGINEER TOPIC 1 QUESTION 222 DISCUSSION

Actual exam question from Google's Associate Cloud Engineer

Question #: 222

Topic #: 1

[\[All Associate Cloud Engineer Questions\]](#)

You want to permanently delete a Pub/Sub topic managed by Config Connector in your Google Cloud project. What should you do?

- A. Use kubectl to create the label deleted-by-cnrm and to change its value to true for the topic resource.
- B. Use kubectl to delete the topic resource.
- C. Use gcloud CLI to delete the topic.
- D. Use gcloud CLI to update the topic label managed-by-cnrm to false.

**Selected Answer: B**

If a resource is managed by the Config Connector, you can update/delete it through kubectl command.

**Selected Answer: B**

Deleting a resource  
Use kubectl delete to delete resources. For example, to delete the PubSubTopic you created earlier, run kubectl delete with your pubsub-topic.yaml file:  
kubectl delete -f pubsub-topic.yaml

Read the question. It's a Pub/Sub topic managed by Config Connector.
