### EXAM ASSOCIATE CLOUD ENGINEER TOPIC 1 QUESTION 115 DISCUSSION

Actual exam question from Google's Associate Cloud Engineer

Question #: 115

Topic #: 1

[\[All Associate Cloud Engineer Questions\]](#)

You need to reduce GCP service costs for a division of your company using the fewest possible steps. You need to turn off all configured services in an existing GCP project. What should you do?

- A. 1. Verify that you are assigned the Project Owners IAM role for this project. 2. Locate the project in the GCP console, click Shut down and then enter the project ID.
- B. 1. Verify that you are assigned the Project Owners IAM role for this project. 2. Switch to the project in the GCP console, locate the resources and delete them.
- C. 1. Verify that you are assigned the Organizational Administrator IAM role for this project. 2. Locate the project in the GCP console, enter the project ID and then click Shut down.
- D. 1. Verify that you are assigned the Organizational Administrators IAM role for this project. 2. Switch to the project in the GCP console, locate the resources and delete them.

Selected Answer: A

option A

👍 ↩️ 🚩 upvoted 1 times

🗄️ 👤 **sabrinakloud** 1 year, 6 months ago

i believe it's option A.

roles/owner Owner All Editor permissions and permissions for the following actions:

Manage roles and permissions for a project and all resources within the project.

Set up billing for a project.

👍 ↩️ 🚩 upvoted 1 times

🗄️ 👤 **researched\_answer\_boi** 1 year, 9 months ago

According to "<https://cloud.google.com/resource-manager/docs/access-control-org#resourcemanager.organizationAdmin>" and "[https://cloud.google.com/resource-manager/docs/access-control-proj#basic\\_roles](https://cloud.google.com/resource-manager/docs/access-control-proj#basic_roles)", only the project owner (and project deleter (roles/resourcemanager.projectDeleter)) can delete a project.

So, answer A is the technically correct one.
