Actual exam question from Google's Associate Cloud Engineer

Question #: 207

Topic #: 1

[All Associate Cloud Engineer Questions]

Your team wants to deploy a specific content management system (CMS) solution to Google Cloud. You need a quick and easy way to deploy and install the solution. What should you do?

A. Search for the CMS solution in Google Cloud Marketplace. Use gcloud CLI to deploy the solution.

B. Search for the CMS solution in Google Cloud Marketplace. Deploy the solution directly from Cloud Marketplace.

C. Search for the CMS solution in Google Cloud Marketplace. Use Terraform and the Cloud Marketplace ID to deploy the solution with the appropriate parameters.

D. Use the installation guide of the CMS provider. Perform the installation through your configuration management system.
